SAINTS BALL 2008

Live Auction & Special Project Auction

SAINTS BALL 2008 BENEFITS

Some of the most vulnerable patients we serve are children. Hundreds of children are flown out of the Montana area for acute care hospital treatment each year. Our challenge is to have intensive care pediatric services to keep these children closer to home with their family and local healthcare professionals close at hand.

*Help make this dream a reality with your support through SAINTS. Your gift will forever change pediatric care in Montana and, ultimately, the health of children for generations to come.
Thank you.*
